Data Ops Exec. | Software Eng.
Masters in International Business (Distinction)
BSc Computer Science (Software Dev.)

PROFILE

Data Operations Executive located in Singapore with previous experience as a Software Developer and graduate with a Bachelor of Computer Science and Masters in International Business from the University of Wollongong, Australia.

Key achievements include:

- Successfully implemented process improvements at Truescope Singapore by developing automated scripts using Python and JavaScript, resulting in a significant reduction in manual data handling time and increased overall productivity. This initiative streamlined workflows, minimized errors, and enabled the team to focus on higher-value tasks.

- Assisted HuaChen in preparation for their Christmas exhibition in Russia which attracted international clients from China, Russia, Croatia, UAE, Germany to identify leads which led to an increase in yearly revenue by over 20% in sales of their Christmas range products.

- Improved Truescope's client-facing and internal web applications through bug-fixing, implementing unit tests with Jest, making web applications more mobile friendly and responsive, improving display of login interface, and worked with the client success team to troubleshoot issues faced by clients.

KEY SKILLS

- Problem solving and logical thinking
- Proficiency in web programming languages – JavaScript, HTML5, CSS3, Python

- Accuracy and attention to detail
- Organisational and time management skills
